

# PARTS MANAGEMENT

SPARE PARTS PACKAGES ■ 3D SPARE PARTS CATALOG ■ DISCONTINUED PARTS

Spare parts management with maximum transparency for the safe and plannable supply of parts across all areas.

## YOUR ADVANTAGES

### VISIBILITY OF LEAD TIMES

Time savings and reduction of downtime costs thanks to transparent delivery times

### OPTIMIZED INVENTORY

Approximate values and recommendations from decades of experience from an innovative world market leader

### SECURITY

Recurring evaluations of obsolete parts on the machine, to proactively minimize risk

## OUR SERVICES

- Information about delivery times and prices
- Parts recommendation for optimal inventory
- HTML-based 3D spare parts catalog with functions for parts identification, shopping cart creation and centralized updates
- Overview of the complete machine parts list for obsolete parts
- Transparent processing of the supply status of individual parts

“With our recommendations for your spare parts management strategy, you have a good basis for planning your production capacities.”

**Marcel Neidhold, Team Leader Service Purchasing**
